  CGPA: 8.7

SKILLS

Java skills:-Java(core) and Object-oriented Programming concepts
Web Development:- Proficient in HTML,CSS and JavaScript Experienced in creating responsive webpages and implementing design concepts

PROJECT

- **The Loan Status Prediction using Machine Learning**

  The Loan Status Prediction : It focuses on enhancing the decision-making process for financial institutions by accurately predicting the approval or rejection of loan applications
- **Image Recognition Using Artifical Intelligence**
  Image recognition using artificial intelligence (AI) is a rapidly advancing field that enables machines to interpret and analyze visual data. This technology relies on deep learning algorithms, particularly Convolutional Neural Networks (CNNs), to detect and classify objects, patterns, and features in images.
